Please send the information to linda boornasian and cc me  
This is a very hot issue. I think we just let our management know about the tribes question. I imagine the answer will be forthcoming.

**Subject:** Onondaga Nation and Fracking Issue  
Samantha:

I received a call from Grant Jonathan (R2 Indian Coordinator) regarding drinking water supplies to the town of Dimock. Grant had received a call from the General Counsel of the Onondaga Nation who wants to know why EPA recently retracted its offer to supply water. The Nation is now considering sending down water to Dimock. Grant also indicated that R2 senior management, including the RA, is aware of this issue and believes the response should come from R3. Grant has offered, however, to join any calls that we may have with the Onondaga or their GC.

I had seen this mentioned in the headline news a day or so ago, but do not think a reason was given in the article. Do you want me to follow up with our DW branch?

Thanks,  
Terry
